

## Land

Protected a 1,000-acre natural & historic heritage site along the coast; Planted 3,000 longleaf pines in Montgomery county; and preserved 1,800 acres in the Piedmont.

## Air

Advocated for clean energy policies to create over 5,000 clean energy jobs; Established regulations to reduce diesel exhaust containing more than 40 toxins.

## Water

Removed over 90,000 pounds of trash from our lakes, rivers, streams and coast. Trained 139 community volunteers to identify, document, and report pollution.

## Wildlife

Provided care to over 1,000 wild animals; Built 15 acres of oyster sanctuary; and maintained habitat for migratory birds, native pollinators, reptiles and amphibians.

**Your investment makes an impact!**

EarthShare NC Members work every day to protect the health of our land, air, water, and wildlife. To learn more about our work visit:
