

Look for **[Your Organization]** and EarthShare NC in Your Workplace Giving Campaign!

[Your Organization] is proud to be part of EarthShare NC, a coalition of nonprofits working every day to protect the health of our air, land, water, and wildlife- for the betterment of our health, economy, and quality of life.

EarthShare NC makes it possible for you to make a positive impact on one, several, or all the causes that you care about through your workplace giving campaign from climate change and clean energy to access to clean air and water. EarthShare NC land trusts protect over 170,000 acres of farmland, forests, river buffers, and parks; Riverkeepers defend our access to clean water; wildlife rehabilitation centers provide homes and treatment for over 1,100 wild animals a year, and advocacy groups promote the decisions needed to make sure we have healthy and prosperous communities to live in.

Look for EarthShare NC in your workplace giving campaign, including the State Employees Combined Campaign (#1100), or **contact Heather@earthsharenc.org to find out how to bring EarthShare NC to your workplace.**
