

ENVIRONMENTAL EDUCATION TRAINING CENTER

“I have lived in the area for six years now and learned more in these journeys than I have in the years I’ve lived here.”

—Participant

Companies have access to a course collection of environmental topics for education, awareness, and professional training. Course completion requires five engagements that together provide core competency of the topic, the foundation for shared understanding, and flexibility for a personalized training experience. White label branding customization, live content, Green Team facilitation, and corporate content can be added.

DETAILS

- On-demand access to courses and unlimited users.
- Local, national, and global content included.
- Online tracking of completion and competency survey at the conclusion of the course.
- Virtual Badges earned for employee motivation and recognition.
- Engagements include a topic introduction, choice of informational webinars or written materials, or volunteer engagement.
- Customization options: branding the course site, company specific content and course engagements, nationwide content focus.

BENEFITS

- Inclusive of in-office and remote employees.
- Employee education and training hours provided.
- Optional in-person experience to complement virtual learning.
- You select the course topic and timing that aligns with your company’s initiatives.
- CSR and ESG reporting metric provided.

EXAMPLE IMPACT REPORT

 100 employees completed course	 500 training hours completed
